

ClinicFlow Demo Videos

Please familiarize yourself with ClinicFlow by watching the two short videos below. There are two end-user interfaces for ClinicFlow:

- i. ClinicMode – this is what Immunizers and Greeters will use; this is on the tablet.
- ii. Console – this is what back-office folks will use (administrator, clinic owner, etc.); this is on a desktop/laptop.

1. Here is a short (~8 min) [video overviewing ClinicMode](#) workflow for Immunizers. **Note to the team** – this is a mock-up so that you understand the functionalities. What is shown in the video isn't the exact content as what you'll see at go-live. However, it will look/function the same so not to worry!

The screenshot displays the 'Clinic Roster' interface for July 12, 2022. It features a header with navigation options like '< Exit Clinic', 'Drop-In', and 'Refresh'. Below the header is a search bar for patients and a dropdown menu for appointment types. The main content is a table with columns for Registrants, Scheduled at, Services, Forms, Status, and Action.

Registrants	Scheduled at	Services	Forms	Status	Action
Bok, Gwang Age: 89 years	Jul 12, 2022 09:00 - 09:20 Checked In	COVID-19: 3 doses (Last dose 5 days ago) Influenza: 0 doses	! ! ! !	! !	Begin
Black, Bob Age: 70 years	Jul 12, 2022 09:20 - 09:40 Partially Complete	COVID-19: 4 doses (Last dose 5 days ago) Influenza: 1 dose (Last dose 340 days ago)	✓ ✓ ✓ !	✓ !	Continue
Copper, Candice Age: 69 years	Jul 12, 2022 09:40 - 10:00 Complete	Influenza: 1 doses (Last dose 0 days ago)	✓	✓	Completed
Davidson, Dave Age: 71 years	Jul 12, 2022 10:00 - 10:20 Scheduled	COVID-19: 2 doses (Last dose 205 days ago)	! !	! !	Begin
Everson, Eve Age: 76 years	Jul 12, 2022 10:20 - 10:40 Scheduled	Influenza: 0 doses	! !	! !	Begin
Smith, Sam Age: 90 years	Jul 12, 2022 10:40 - 11:00 Scheduled	COVID-19: 2 doses (Last dose 205 days ago)	! !	! !	Begin

- There are 'Additional Settings' in the Vaccination Information screen. This can be expanded and shows the Immunizer License Number and Body.

- The Roster was not shown in the video, so here is a screenshot for them to see what it looks like! It provides patient name & age, and then the Services they booked and the status of the form & service. This may be slightly changed with the new Service types we are adding, but similar enough to share with the group.

-
2. This 15 min [video for the ClinicFlow Admin Console](#), reveals the public booking workflow, Clinic setup, user management, and patient management as these are the areas that they will be focused most on. This is not comprehensive and certainly cannot replace training, but this will provide insight and visibility into what it will look like.
